Highlights

Globelink West Star is now AEO Certified

We are delighted on the recommendation of Globelink West Star as "Authorized Economic Operator" by Dubai Customs on 22nd January 2018, which is yet another milestone after the successful ISO 9001 - 2015 Certification. These recommendations are evident to our pursuit for quality management and process.

The Authorized Economic Operator (AEO) program is a partnership between Trade community and Customs, in which actors in the global supply chain can apply for AEO status to receive trade facilitation benefits and, at the same time, verify and increase their level of compliance and security.

The AEO concept is a global standard as defined by the World Customs Organization (WCO) SAFE Framework of Standards to Secure and Facilitate Global Trade. More than 70 countries have implemented an AEO program and a significant number of countries are planning or is currently in the process of doing the same.

Over 90% of the global trade is anticipated to flow through the AEO program in near future.

Globelink West Star's management team received this award from H.E. Mohammad Juma Nasser Buossaiba, Director General of Federal Customs Authority, in the presence of H.E. Ahmed Mahboob Musabih, Director of Dubai Customs.

Below is a summary of the benefits for Authorized Economic Operators considering that not all benefits can be applied in every case:

1

Grace period for declaration amendments

2

Elimination of post-filing submission of paper documents

3

No inspection required after declaration modifications

4

Extended period for re-exports

5

Publication on Customs AEO website

6

Inspection prioritization

7

Reduced post-clearance audits

8

Self-disclosure of errors without penalties

9

Use of non-intrusive inspections technology

10

Faster clearance

11

Dedicated Key Account Manager

12

Key Account Manager Co-ordination with other Authorities

13

AEO self guarantee

14

Penalty mitigation

15

Award of AEO certification

16

Priority consignment pick-up

17

Free use of Dubai AEO in marketing

Country Focus – Globelink Uniexco

Globelink Uniexco, with a rich history dating back to 1966, was the first maritime cargo consolidation company in Spain with 52 years of experience in the field of cargo exports and imports. We currently have offices in 4 locations in Spain and 2 offices in Portugal.

Spain Globelink offices:

-  Barcelona (Country Head office)
-  Valencia
-  Madrid
-  Bilbao

Portugal Globelink offices

-  Leixoes / Porto
-  Lisbon

With Madrid as its Capital city, Spain shares the Iberian Peninsula with Portugal at the western end of the Mediterranean Sea and is the fourth largest country in Europe. The strategic location of Spain in the southwest of Europe and only 14 km away from the African continent makes it a good gateway for Africa and America. Barcelona is therefore an ideal transshipment hub for all main Mediterranean, North Africa, Central and South America destinations.

With Spanish being the second most natively spoken language in the world and widely spoken in Latin America, it also puts Spain at an advantageous position for business with Central and South America. Culturally, Spain is a Western country but due to the great strength of its Roman heritage in almost every aspect of Spanish life, Spain maintains its special identification with Latin America with economic and technical cooperation programs and cultural exchanges, both bilaterally and within the EU.

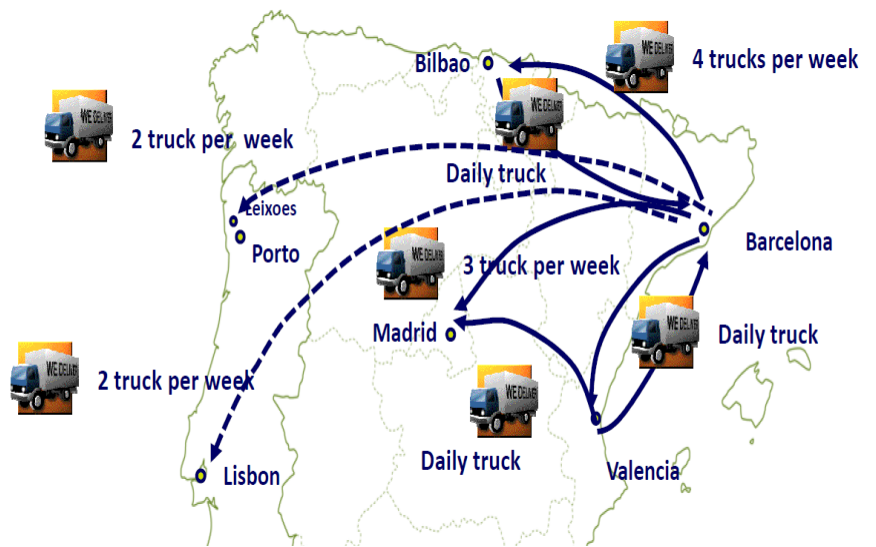

Globelink Uniexco is AEO (Authorized Economical Operator) certified since October 2010, and is also an IATA member and FIATA since 1972. We are ready to offer customers international sea freight, air freight and other logistics services between Spain and any part of the world.

We also maintain regular LTL cargo services by trucks, linking main cargo hubs and facilitating expedient transshipment as illustrated below:

- ❖ Twice weekly trucks linking Porto and Lisbon in Portugal with Barcelona
- ❖ Weekly trucks linking Lyon and Marseille in Southern France region with Barcelona

Globelink Uniexco strongly serve **77** direct Export services and **57** direct Import services.

In addition, we also offer services to niche destinations, as well as from niche origins, such as below:

- ✚ Barcelona to Abidjan
- ✚ Barcelona to Dakar
- ✚ Barcelona to Guatemala City
- ✚ Barcelona to Guayaquil
- ✚ Barcelona to Puerto Mariel/La Habana
- ✚ Barcelona to Hamad Port
- ✚ Barcelona to Iquique
- ✚ Barcelona to Oran

- ✚ Ho Chi Minh to Barcelona
- ✚ Haiphong to Barcelona
- ✚ Manila to Barcelona
- ✚ Jakarta to Barcelona
- ✚ Fuzhou to Barcelona
- ✚ Chittagong to Barcelona
- ✚ Kobe/Osaka/Nagoya/Tokyo/ Yokohama to Barcelona
- ✚ Shanghai/Ningbo/Shenzhen to Algeiras

Globelink Uniexco's website seeks to provide the right tools to offer our customers more convenient LCL solutions. Our IT capabilities through the website include:

-  Comprehensive Track and Trace system
-  LCL quotation tool, schedules, retrieving HBL and invoices

The Track and Trace system allows full traceability of export operations, from origin to destination, and ensures the safe delivery of your cargo. Customers will be able to access pictures of their cargo after it has been delivered into our warehouse, and also able to inform if the end user has removed the goods from the destination warehouse. These unique features distinguish Globelink Uniexco as the market leader at the forefront of technology development amongst the maritime neutral consolidators in Spain.

The LCL quotation tool allows forwarders to obtain a quick, accurate and customized quotation for any Import or Export service. Users can customize the quotations with their company logo and include any other information they require such as sailing schedules, LCL rates and contact details of agents/Globelink offices. This customized quotation can then be passed on directly to the final client.

For Export Service

The tool is also able to provide a fast door (Ex-works) quotation online. Forwarders can then make bookings online and receive shipping instructions and confirmation directly via email.

For Import Service

Forwarders can also obtain a schedule with information on the devanning/stripping of the container and pictures for each cargo.

Issue 176, March 2018

Globelink,
Linking you globally.
