Highlights

Country Focus – Globelink Morocco

Casablanca is the largest city in Morocco, located in the northwestern part of the country on the Atlantic Ocean. It is also the largest city in the Maghreb, as well as one of the largest and most important cities in Africa, both economically and demographically. Exporters who want access to Morocco by sea would have to access to the main gateway via Casablanca port.

Casablanca is Morocco's chief port and one of the largest financial centers on the African continent with approx. 3.3 million population. Casablanca is considered the country's economic and

business center. The city's port is one of the largest artificial ports in the world.

Our company in Casablanca, Globelink TMB has extensive experience in the Moroccan Market, in sea freight, road freight and also warehousing.

**GlobeLink,
Linking you globally.**

Being the market leader in the Moroccan market, we are capable to position ourselves and enable us to offer comprehensive services to the customers. We also owned an International Trucking arm for road haulage from all over Europe to Morocco.

GlobeLink TMB is accredited with below memberships which give you assurance that your cargo is in good hands, and the quality service you would expect from us.

GlobeLink TMB offers total 16 import direct services from Far East, Europe and also Mediterranean by sea and truck respectively.

We are connecting our LCL export services worldwide through Barcelona hub to bring your cargo to every corner of the world.

In addition, we are assuring a regular direct service from the below origin to Casablanca:

Shanghai

Singapore

Seasonal Measures for Brown Marmorated Stink Bug (BMSB)

The Australian Department of Agriculture and Water Resources (DAWR) has issued the Final Seasonal Measures to be implemented for the forthcoming BMSB season, commencing on 1 September 2018 to 30 April 2019.

Target risk countries

Any target high risk or target risk goods manufactured in, or shipped from these countries are subject to the BMSB seasonal measures. Any vessel that tranships or loads goods from these countries are also subject to heightened vessel surveillance.

- United States of America
- Italy
- Germany
- France
- Russia
- Greece
- Hungary
- Romania
- Georgia
- Japan (heightened vessel surveillance will be the only measure applied)

Target high risk goods

Goods in this category require mandatory treatment for BMSB risk.

All tariffs under the following chapters are categorised as target high risk goods.

36 - Explosives; pyrotechnic products; matches; pyrophoric alloys; certain combustible preparations	74 - Copper and articles thereof	84 - Nuclear reactors, boilers, machinery and mechanical appliances; parts thereof
44 - Wood and articles of wood; wood charcoal	75 - Nickel and articles thereof	85 - Electrical machinery and equipment and parts thereof; sound recorders and reproducers, television image and sound recorders and reproducers, and parts and accessories of such articles
45 - Cork and articles of cork	76 - Aluminium and articles thereof	86 - Railway or tramway locomotives, rolling-stock and parts thereof; railway or tramway track fixtures and fittings and parts thereof; mechanical (including electro-mechanical) traffic signalling equipment of all kinds

57 - Carpets and other textile floor coverings	78 - Lead and articles thereof	87 - Vehicles other than railway or tramway rolling-stock, and parts and accessories thereof
68 - Articles of stone, plaster, cement, asbestos, mica or similar materials	79 - Zinc and articles thereof	88 - Aircraft, spacecraft, and parts thereof
69 - Ceramic products – including sub chapters I and II	80 - Tin and articles thereof	89 - Ships, boats and floating structures
70 – Glass and glass ware	81 - Other base metals; cermets; articles thereof	93 - Arms and ammunition; parts and accessories thereof
72 - Iron and steel - including sub chapters I, II, III, IV	82 - Tools, implements, cutlery, spoons and forks, of base metal; parts thereof of base metal	
73 - Articles of iron or steel	83 - Miscellaneous articles of base metals	

Target risk goods

Goods in this category will be subject to increased onshore intervention through random inspection. If BMSB is detected the goods will be directed for onshore treatment.

All tariffs under the following chapters are categorised as target risk goods.

25 - Salt; sulphur; earths and stone; plastering materials, lime and cement	31 - Fertilisers	47 - Pulp of wood or of other fibrous cellulosic material; recovered (waste and scrap) paper or paperboard
26 - Ores, slag and ash	38 - Miscellaneous chemical products	48 - Paper and paperboard; articles of paper pulp, of paper or of paperboard
27 - Mineral fuels, mineral oils and products of their distillation; bituminous substances; mineral waxes	39 - Plastics and articles thereof - – including sub chapters I and II	49 - Printed books, newspapers, pictures and other products of the printing industry; manuscripts, typescripts and plans
28 - Inorganic chemicals; organic or inorganic compounds of precious metals, of rare-earth metals, of radioactive elements or of isotopes - including sub chapters I, II, III, IV and V	40 - Rubber and articles thereof	56 - Wadding, felt and nonwovens; special yarns; twine, cordage, ropes and cables and articles thereof
29 - Organic chemicals - including sub chapters I, II, III, IV, V, VI, VII, VIII, IX, X, XII and X111	46 - Manufactures of straw, of esparto or of other plaiting materials; basket ware and wickerwork	

All other goods

BMSB seasonal measures do not apply to goods not identified as 'target high risk' and 'target risk'. However, these goods may be subject to the measures if they are part of a consignment that contains target high risk and target risk goods.

Treatment options

- heat treatment
- methyl bromide fumigation
- sulfuryl fluoride fumigation

Treatment minimum standards

There are minimum standards for the application of BMSB treatments. Treatments applied for biosecurity purposes are part of managing the risk of introducing exotic pests and diseases. These treatments are only effective when conducted correctly.

It is important that treatment providers understand these requirements to effectively treat consignments for import into Australia.

Fraudulent certificates

For treatments conducted in target risk countries, only BMSB treatment certificates from approved list of treatment providers will be accepted.

For target consignments with a certificate from a treatment provider that is not approved, they will either be:

- exported, or
- destroyed, in an approved manner
